

October 31st, 2016 - From the volunteers at Riverdale Volunteer Fire Department we hope everyone had a safe and Happy Halloween! As always the volunteers made it a point to hand out candy to the children of the community as well as many visitors enjoying the Halloween festivities in town! We had a great time interacting with the parents, teaching the children the importance of fire safety, demonstrating activities like what a firefighter looks like who is in full turnout gear, and as always giving tours of the firehouse to the children. We hope everyone had a chance to stop in for some candy and we hope to see more great costumes next year!
